

Jason Holt

jasonovholt@gmail.com | jasonovholt.github.io

Driven mechanical engineering graduate with a lifelong passion for robotics and mechatronic design. Highly skilled in leveraging CAD and advanced 3D printing techniques to move complex projects from rapid prototype to fully functional, verified assemblies. Seeking a mechanical engineering role to utilize hands-on fabrication and design validation skills in the development of advanced robotic systems.

Education

University of Central Florida | Orlando, FL *Bachelor of Science in Mechanical Engineering* | Graduated May 2026

- **Member:** American Society of Mechanical Engineers (2022 – 2026)

Skills & Certifications

- **Certifications:** CSWP (Mechanical Design), CSWP (Drafting Tools), CSWA (Simulation), CSWA (Additive Manufacturing), Microsoft Technology Associate (Security).
- **Technical Skills:** SolidWorks, FEA, 3D/2D Drafting, 3D Printing, Industrial Machinery, Python, HTML/CSS.
- **Core Competencies:** Design Verification, Team Leadership, Technical Documentation.

Projects

Senior Design Project: Quadrupedal Robotic Dinosaur | *Design Verification Lead*

- Spearheaded mechanical design and verification for a quadrupedal robotic system
- Designed and executed robust test plans to validate manufacturability and system integrity
- Analyzed performance metrics using simulation tools and automated testing to ensure operational standards

Robotic Hand (ASME Competition)

- Designed and built a competitive robotic hand with independently controlled fingers for UCF's ASME competition
- Synchronized mechanical and electronic systems to deliver precise, reliable finger articulation
- Developed and deployed the software logic required to translate system inputs into precise, synchronized physical movements across all five digits

Software Projects (AI App & Portfolio)

- Built a Windows desktop application using Python and the Google Gemini API to generate custom language-learning narratives
- Developed and deployed a custom, responsive personal portfolio website using HTML and CSS.

Professional Experience

Disney College Program | *Intern* | Orlando, FL | 08/2025 – 06/2026

- Maintain high safety and cleanliness standards in high-traffic areas while resolving guest concerns
- Collaborate with diverse teams to ensure efficient operations and exceptional guest experiences

Ashley Ridge High School IT Technician | *Intern* | Orlando, FL | 08/2020 – 05/2021

- Provided comprehensive technical support by diagnosing system failures and executing hardware/software repairs for campus-wide user devices
